

SUICIDE PROJECT

Section Twelve of the Relationship Series

Everywhere there were people living out their lives using aspects of suicide against themselves. They did not even have the authenticity of the final act to speak for them. Suicide is, in short, the one continuous, everyday, ever-present problem of living. It is a question of degree. I'd seen them in all varying stages of development and despair. The failed lawyer, the cynical doctor, the depressed housewife, the angry teenager... all of mankind engaged in the massive conspiracy against their own lives that is their daily activity. The meaning of suicide, the true meaning, had yet to be defined, had yet to be created in the broad dimensions it deserved.
